

Press Release

Seltech expands its office network to further support Azoteq globally

Créteil, France – Seltech announced opening two more offices to increase its global presence to support Azoteq's growth.

Seltech with its 30-year experience in the market is a highly specialized distributor with focus on flexibility in delivery and strong internal technical skills to better support its partners growth. By opening two offices in Singapore and San Francisco, CA, USA, Seltech further commits to growing its support to Azoteq and its customer base.

Eva Wang is operating the Singapore office and joins with over 10 years of related professional experience in project management and marketing & sales management.

Julien Jourdan operates the San Francisco liaison office and comes with 5 years of experience working with Azoteq in Asia and Europe. His strong technical background makes him a great asset for introducing Azoteq latest technologies to North America.

Julien grows the Seltech USA team located in Raleigh NC, USA.

“Azoteq is excited with the expansion in these 2 important geographical regions” said Jean Viljoen, VP of Marketing, from Azoteq. “Julien Jourdan is an important asset for us in the Bay area and will contribute greatly to serve our customers there with technical and commercial support”

“Azoteq is a trusted and capable supplier with whom we have had many years of success, especially in Asia. We are looking forward to expanding our relationship with Azoteq in North America and Asia to elevate commercial and technical support there. I am highly confident our common customers will benefit from this expanded partnership” said Giulio di Capua, Seltech General Manager.

About Azoteq

Azoteq (www.azoteq.com) is a pioneer in multi-sensor technologies. With more than 12 years of capacitive sensing experience, the sensor offering is now expanded to include ProxFusion[®]: multi-sensor technologies on single ICs. The first generation of ProxFusion[®] offers capacitive sensing, Hall-effect, IR, PIR, inductive and ambient light sensing.

About Seltech:

With close to 30 years of experience, Seltech is a specialized international distributor and a solution provider with a wide portfolio of acoustic, capacitive sensing and RF products. With offices in Europe (Paris and Frankfurt), China (Nanjing, Shenzhen and Hong Kong), and the United States (Raleigh NC), Seltech provides best-in-class support from design to production, helping its customers reduce time to market and overall costs.
